TRANSPORTATION -- MOTOR VEHICLES

Computer Database Redesign
[Paper #930]

draft

Motion:

Move to shift \$2,000,000 SEG, of the \$3,000,000 SEG provided by the bill for computer database redesign in 2001-02, to 2002-03 and place this amount in unallotted reserve. Require DOT to prepare a report, to be presented to the Joint Committee on Finance, at its fourth quarterly meeting in 2001-02 under s. 13.10 of the statutes (June, 2002), on the Department's plan for utilizing departmental data processing resources, including the use of resources for DMV database redesign. Require DOT to consult with the Department of Electronic Government on the preparation of the report and include recommendations of how other state agencies may benefit from a coordinated approach to data processing resources planning. Specify that the \$2,000,000 SEG provided in 2002-03 may be released from unallotted reserve by the Joint Committee on Finance when the Committee reviews this report and specify that the Committee may transfer a portion of these funds to DOT's appropriation for departmental management and operations to be used in the preparation of a consultant study of DOT's information technology needs. Move the remaining \$1,000,000 SEG in 2001-02 from unallotted reserve to DMV's supplies and services line to allow this amount to be used on the redesign project.

Note:

The Executive Budget Book indicates that the Governor is requesting that DOT conduct a study of the Department's information technology needs. DOT estimates that a comprehensive study of this type, performed by a consultant, would require \$1,000,000. The bill would provide \$3,000,000 in 2001-02 and place this amount in unallotted reserve until the study is completed.

This motion would shift \$2,000,000 from 2001-02 to 2002-03 and place this amount in unallotted reserve. The funding in the second year could be released from unallotted reserve by the Committee after reviewing a report prepared by DOT on the Department's information technology needs, prepared in consultation with the Department of Electronic Government. The Committee would be able, after reviewing this report, to release the funds from unallotted reserve and would be able to transfer a portion of the \$2,000,000 from DMV's appropriation to DOT's appropriation for departmental management and operations to be used on a consultant study. The remaining \$1,000,000 in 2001-02 and all or a portion of the \$2,000,000 in 2002-03 would be used for the DMV redesign project.

Aaron,

I have a few changes to make on two drafts. Call me if you have questions about these:

On b0248/1: I think the report should be only on the DMV redesign and not "on the Department's computerized information systems." So, I think we should strike that part. The rest looks fine.

On b0245/1: I think we had better specifically say that the Finance Committee can transfer funds to the appropriation for departmental management and operations [20.395 (4) (aq)] for conducting a consultant study of the Department's computer needs when it reviews the Department's initial report. There may be some doubt as to whether the Committee would have the authority to do this if we don't specifically say they can do it.

Thanks.
